Countdown to  
PDPM

October

## PURPOSE

The new Medicare Part A payment classification system will be implemented on October 1, 2019. Unlike the former classification system, the Patient Driven Payment Model (PDPM) uses the resident's primary SNF diagnosis to categorize the resident's payment amount. Accurate assignment of the ICD-10 CM code for the identified primary diagnosis and supporting diagnoses is critical to success in the PDPM system. This one-hour webinar will review the general coding guidelines for ICD-10 and briefly examine the ICD-10 mapping for the PDPM system. Diagnosis management for billing will be explained, including a review of the diagnosis code locations on the UB-04 billing form.

## LEARNING OBJECTIVES:

- Review the ICD-10 CM general coding guidelines.
- Identify the primary diagnosis for an SNF admission.
- List three strategies for including proper diagnoses on the Medicare bill.

## SUGGESTED AUDIENCE

- MDS Coordinators
- Billing staff
- Administrators
- HIM staff
