October

1

PURPOSE

This one-day interactive workshop will help prepare your organization for implementation of the PDPM classification system for Medicare Part A payments that becomes effective October 1, 2019. The new system has implications for clinical operations, including, pre-admission screening, IDT documentation and may influence the types of individuals your organization will admit.

Countdown to
PDPM

October

1

LEARNING OBJECTIVES

- Review the PDPM classification system so you know how it differs from the RUG-IV Medicare payment system.
- Understand the role of the IDT, and what will be expected of you as a member of that team, by following an admission through the interdepartmental process.
- Describe how clinical documentation systems support PDPM classification and assist your organization in capturing accurate reimbursement for services provided.
- Learn through case studies, how altering a component of the PDPM classification changes the per diem payment.
- Identify actionable items to bring back to your organization that will make for a smoother implementation process, so you are ready before the October 1, 2019 deadline.
