

# Living the Pledge

## THANK YOU

*For Keeping Us Safe*

*In the Age of COVID*

## Gloves are not enough!

- Germs on your hands can transfer to your gloves when you put them on without performing hand hygiene
- 53% of the time the act of taking off your gloves results in contaminating either your skin or clothes

Honor your Safe Care for Seniors Pledge and Speak Up if you are running into any barriers to Safe Glove Use to keep you, those you serve, and your co-workers Safe from Harm.
