

EFFECTIVE STRATEGIES FOR SNF SURVEY PREPARATION

Tuesday, August 31, 2021 • 8:30 a.m. – Noon

PURPOSE

The global pandemic altered the survey process as the world focused on infection prevention and control priorities. With COVID-19 rates lower than at the peak of the pandemic, the Minnesota Department of Health is starting to resume usual survey activities. This program is designed to provide skilled nursing communities with information and practices to prepare for licensing and certification surveys.

LEARNING OBJECTIVES

- Review current survey trends including correction orders frequently written at the immediate jeopardy level.
- Discuss civil monetary penalties and current CMP trends.
- Describe the MDH survey process and techniques to prepare for a regulatory survey.
- Compare and contrast the IDR and IIDR processes and when each could be used.
