

# NOTICE REQUIREMENTS FOR ALL TRANSITIONS

*Thursday, April 22, 2 – 3 p.m.*

## Assisted Living Licensure

AND OLDER ADULT PROTECTIONS

### PURPOSE

In December 2020 during a special session, the Minnesota State Legislature made statutory changes impacting current housing-with-services registrants and home care license holders regarding future transition to assisted living consumer notice requirements. While providers will decide if they will continue or change their operations, consumers will need to decide if they desire to change the provider of their services. As part of the changes, a resident has the right to receive information in advance of a change to their situation to make an informed decision about their service needs. This webinar will discuss this new law and the expectations for AL, HWS and home care to comply with it.

### LEARNING OBJECTIVES

- Understand what the Consumer Notification Requirements for Assisted Living Licensure Transition legislation passed in December 2020 was designed to address.
- Explore various scenarios of different organizational structures, what will be required of each in providing notices to current residents and when they need to be sent.
- Gain important information for how to comply with this new law.
