

### **Mask Fit Testing: Train-the-Trainer @ Institute**

N95 masks are a key component of infection prevention and control programs in long-term care, and fit testing to ensure proper mask sizing is critical. But it can be difficult or expensive to find someone to fit test your staff.

We have created an opportunity during the Institute for nurses to learn how to properly fit test N95 masks for staff.

Fit testing will take place in the Rotunda (lower level, next to Exhibit Hall) at designated times\* during Experience Expo hours on Wednesday, Feb. 9 and Thursday, Feb. 10. Advanced registration is required, space is limited. Sign-up for a timeslot [here](#).

\*Mask Fit Testing Times for up to 8 people:
