51 Aging Services Providers Named to Safe Care for Seniors Action Honor Roll
Action Honor Roll Recognizes Achievements in Prevention, Dignity and Collaboration

SAINT PAUL, MN – (Feb. 19, 2020) – Fifty-one aging services providers in Minnesota have been named to the Safe Care for Seniors Action Honor Roll.

The Action Honor Roll recognizes aging services providers who have made the Safe Care for Seniors pledge and demonstrated action and outcomes in prevention, safety, respect, learning and improvement, and collaboration.

“Safe Care for Seniors is a new way of thinking and taking action to prevent the risk of harm that can occur in the course of caregiving,” said Gayle Kvenvold, President & CEO, LeadingAge Minnesota. “The 51 providers we are recognizing on the Action Honor Roll are modeling the Safe Care for Seniors pledge and ensuring the older adults they serve are safe from harm and that all who live and work in their settings are treated with dignity and respect.”

Safe Care for Seniors is a comprehensive safety and quality improvement program focused on prevention. The program, created by LeadingAge Minnesota in 2019, begins with a commitment pledge to respect, dignity and safety. It is then followed by implementation of a five-step action plan that includes leadership accountability, designated safety champions, identifying and addressing improvement opportunities, enhanced transparency, communication and collaboration with residents and families, and an ongoing commitment to report, learn and improve from near miss events or when something unexpected happens.

More than [450 aging services providers](#) have made the Safe Care for Seniors Pledge. The Action Honor Roll recognizes the first 51 providers to complete the intensive five-step action plan. LeadingAge Minnesota will recognize providers who complete the plan on a quarterly basis.

“Through Safe Care for Seniors, providers are improving the quality of care and services, empowering staff to respond appropriately in difficult or unexpected situations, and enhancing relationships with the seniors and families they serve – all of which contribute to safe, inclusive and trusted environments that provide a high quality of life for all who live and work there,” Kvenvold said.
