

From Insight to Action—Better Care Every Day

The Resident Care Platform built exclusively for innovative senior living operators.

Proven Results:

- \$320K+ captured in unbilled care services
- 2 lives saved
- 37% increase in staff efficiency
- 60% improved UTI recovery times

The Resident Care Platform That Predicts, Prevents, and Protects.

Our AI platform helps communities predict health declines, prevent hospitalizations, and empower staff all while delivering safer residents, longer stays, and higher NOI.

- ✓ Detect subtle changes in condition before hospitalizations
- ✓ Improve staff satisfaction with mobile tools and insights
- ✓ Capture missed revenue with automatic documentation

Predict Health Declines

Detect subtle changes in daily activity and behavior before they become emergencies.

Empower Staff

2-way voice, chat, and real-time location tracking to streamline care and boost morale.

Capture Missed Revenue

Automatically document all care provided and align service levels with actual care.
